You also agree and accept the policies regarding Breaches of Rules of the FIAP.

12. SUBJECT MATTER & DEFINITIONS:

Statement on Subject Matter applicable to all sections

The fundamental rule that must be observed at all times and applies to all sections offered in exhibitions with FIAP patronage is that the welfare of living creatures is more important than any photograph. This means that practices such as baiting of subjects with a living creature and removal of birds from nests, for the purpose of obtaining a photograph, are highly unethical, and such photographs are not allowed in any exhibition with FIAP patronage or PSA recognition. Under no circumstances may a living creature be placed in a situation where it will be killed, injured or stressed for the purpose of obtaining a photograph. Images that show live creatures being fed to captive animals, birds or reptiles are not permitted under any circumstances.

There are also concerns about the use of aerial photography, drones, helicopters, low flying aircraft. These should not cause any interference with other individuals or animals which causes a disturbance in their normal activity or disrupt the way any individuals or animals interact with their environment. **Entrants should comply with all relevant laws and regulations, associated with aerial photography, in the country in which the image was taken.**

Entry into exhibitions is conditional on accepting these policies. The content of images must comply with these General Conditions and with the Division and Section definitions listed in these conditions. Images that - in the sole opinion of the judges or the Exhibition Organizers - do not comply, will be disqualified so the entrant may be aware of the problem when considering entry into other exhibitions.

13. Section definitions:

FIAP definition of Monochrome

A black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome work with the various shades of grey. A black and white work toned entirely in a single colour will remain a monochrome work able to stand in the black and white category; such a work can be reproduced in black and white in the catalogue of a salon under FIAP Patronage. On the other hand a black and white work modified by a partial toning or by the addition of one colour becomes a colour work (polychrome) to stand in the colour category; such a work requires colour reproduction in the catalogue of a salon under FIAP Patronage.

For the purpose of this exhibition, only greyscale images are allowed in monochrome sections. Toned images are not allowed

All around Wines & Sparkling wines (MONOCHROME & COLOUR)

The original files must use as a guiding thread any aspect related to wines and sparkling wines from:

The fruit, the landscape, harvesting, elaboration and processes or distribution.
