DEFINITIONS

* **DEFINITION OF MONOCHROME PHOTOGRAPHY:** A black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome work with the various shades of grey. A black and white work toned entirely in a single colour will remain monochrome work able to stand in the black and white category; such a work can be reproduced in black and white in the catalogue of a salon under FIAP Patronage. On the other hand, a black and white work modified by a partial toning or by the addition of one colour becomes a colour work (polychrome) to stand in the colour category; such a work requires colour reproduction in the catalogue of a salon under FIAP Patronage.

** **“WORLD IN FOCUS” DEFINITION: (Colour or monochrome)** Just as travel and tourism pictures, this section englobes the full range of photographic genres from architecture, culture, events, food, landscape, portraits, etc. A “WORLD IN FOCUS” image expresses the spirit of an era, the essence of a place or of a culture, whether it is shown in an authentic scene or whether it is arranged. Digital manipulation to optimise an image in terms of fine-tuning of levels and colours is allowed as long as the image is looking natural. The same counts for removal of dust or digital noise. Techniques that add, relocate, replace, or remove any element of the original image, except by cropping, are not permitted.

*** **PEOPLE DEFINITION: (Colour or monochrome)** Images where people are the main protagonist. They can be portraits, in the studios, street scenes, family, and public or work environments, etc.
